

COVID-19 & Kids

BETTER COVID-19 CARE FOR PATIENTS, STUDENTS AND COMMUNITIES

COVID-19 & Kids ECHO will provide up-to-date information and support for health care, school and public health professionals across Missouri. A team of pediatric infectious disease physicians and other experts will share information about the latest developments, answer questions, and discuss management of de-identified patient and student cases presented by participants. The Missouri Chapter of the American Academy of Pediatrics, University of Missouri's Sinclair School of Nursing and MU's Missouri Telehealth Network are partnering to support primary care physicians and other providers, school leaders and nurses, and local public health agencies to improve the health and well-being of Missouri children.

LEARN WITH US TO SUPPORT KIDS THROUGH THE COVID-19 PANDEMIC

- Stay informed by pediatric experts about the most up-to-date information related to COVID-19 & Kids
- Bring your questions to the team and support your peers through de-identified case-based learning
- Sessions will be held via videoconferencing **the first and third Thursdays of the month from 4 to 5 p.m.**

WHAT DOES THIS ECHO OFFER?

- No cost continuing education in partnership with the MU Sinclair School of Nursing
- Collaboration, support and ongoing learning with specialist physicians and other experts
- Better community-based care for children
- No cost to participating sites or individuals

LEARNING AND DISCUSSION TOPICS

Topics will cover current evidence related to symptoms of COVID-19 in children, testing and isolation of close contacts, infection control strategies, and supporting the mental health of children, families and professionals.

GOALS AND OBJECTIVES

- Provide evidence-based guidelines to ensure optimal health and safety in the home, school and community
- Establish an educational platform for sharing information among Missouri communities
- Create a diverse learning community for sharing professional knowledge and expertise
